General Contractor:

MB Kahn

PROJECT COMPLETE

The project consists of demolition of the existing Band Building, out structures, existing east parking lot and softball field. New construction consists of building a 29,500 square foot Fine Arts building, a Media Center renovation and expansion totaling 10,100 square feet, renovation of the Main Entrance, vibrio replacement for building foundations, new parking lots and drives, construction of a new softball field and 1,600 square foot Press Box, six (6) new tennis courts, two (2) athletic practice fields, a 9,000 square foot Field House and installation of five (5) portable classrooms/Media Center to use as on-site swing space until the final improvements are completed. This is a multi-phase project and certain milestones are critical.

PROJECT DATA

Scope: Demo existing band building, and build fine arts addition, extend media center, and renovate main entrance. Project will improve parking and add athletic fields.

Project Budget: \$25.0 million

Schedule:

Design Completion: December 2013

Construction Start: June 2014
