An Offeror must, upon request of CCSD, furnish satisfactory evidence of its ability to meet all contractual requirements. UNIVERSAL SERVICE (E-RATE) REQUIREMENTS

To warrant consideration for an award of contract resulting from this Request for Proposal, vendors must agree to participation in the Universal Service Support Mechanism for Schools and Libraries (commonly known as “E-rate”) as provided for and authorized under the federal Telecommunications Act of 1996 (Reference 47 U.S.C. § 254, “Universal Service”). Vendors acknowledge that any contractual relationship resulting from this solicitation of proposals may be partially or entirely dependent upon the successful receipt of Universal Service Fund (“USF”) subsidies. To ensure compliance with all applicable USF regulations, program mandates and auditing requirements, vendors must comply with the following:

- **USF Knowledge**

Vendor shall have, at a minimum, a working knowledge of the federal Universal Service Support Mechanism for Schools and Libraries (commonly known as “E-rate”).

- **USF Registration**

Vendor shall submit with its proposal a valid Service Provider Identification Number (“SPIN”) and a valid Federal Communications Commission Registration Number (“FCCRN”).

- **USF Participation**

Vendor shall agree to participate in the E-rate Program and to cooperate fully and in all respects with the District, the Universal Service Administrative Company (“USAC”), and any agency or organization administering the E-rate Program to ensure that the District receives all of the E-rate funding for which it has applied and to which it is entitled in connection with Vendor’s services and/or products.

- **Lowest Corresponding Price**

The Lowest Corresponding Price Rule (“LCP Rule”), 47 CFR § 54.511 (b), prohibits Vendor from ever charging the District more for E-rate eligible goods or services than it charges similarly situated non-residential customers for similar goods or services, unless it can prove that the lowest corresponding price (“LCP”) is not “compensatory.”

- The District is not obligated to ask for the LCP; it must receive it.
- If, at the time of delivery, the LCP is lower than the agreed-upon price, Vendor must charge the LCP.
- Promotional rates that Vendor offers for a period of more than 90 days must be included among the comparable rates upon which the LCP is determined.
- There is a rebuttable presumption that rates offered within the previous three years are still compensatory.
- Vendor may not avoid the LCP Rule by arguing that none of its non-residential customers are identically situated to the District or that none of its contracts cover goods or services identical to those sought by the District.
- The FCC will permit Vendor to charge the District more than the LCP only when it can prove to the agency that the LCP is not “compensatory” – i.e., that it will face demonstrably and significantly higher costs to provide its goods and/or services to the District than it would to provide similar goods and/or services to similarly situated non-residential customers. Some factors that could affect the cost of service are volume, mileage from facility, and length of contract.

o **USF Documentation**

Vendor shall provide to District staff and/or the District's E-rate consultant within a commercially reasonable period of time, all of the information and documentation that the Vendor has or that Vendor reasonably can acquire that the District may need to prepare its E-rate applications and/or to document transactions eligible for E-rate support.

o **Invoicing Procedures**

Vendor shall itemize, price, and invoice separately any materials or services that are ineligible for E-rate funding. Vendor must include the following information on all invoices to the District for E-rate eligible equipment and/or services:

- Date of invoice
- Date(s) of service
- Funding Request Number ("FRN")
- Vendor's signature on invoice attesting to the accuracy and completeness of all charges
- Detailed description of services performed and materials supplied that matches District's contract specifications, Form 470 and Form 471 descriptions of same
- Clear, concise breakdown of amount(s) to be billed to USAC (discounted portion of eligible charges) and amount(s) to be billed to the District (non-discounted amount of eligible charges)
- Invoice on Vendor's letterhead or on a Vendor-generated form
- District's Billed Entity Number
- District's Federal Communications Commission Registration Number
- Proper E-rate discount percentage as set forth by the applicable FRN and USAC funding commitment decision letter ("FCDL")

o **USF Discounted Invoicing and Reimbursement Processes**

Vendor shall, at the District's request, either (a) invoice the District only for the non-discounted amounts due on E-rate-approved transactions and simultaneously invoice the Universal Service Administrative Company ("USAC") for the balance [Discounted Invoice Process] or (b) invoice the District in full for eligible products and services [Reimbursement or "BEAR" Process].

▪ **Discounted Invoice Process**

– Invoicing

Within fourteen (14) days from the date that Vendor delivers to the District, E-rate approved materials or services, when delivery of such services triggers a payment obligation under Vendor's contract with the District, Vendor must invoice the District for its share of the pre-discount cost of those materials or services.

– Timely Filing

Vendor shall be solely responsible for timely filing invoices with USAC. Accordingly, Vendor understands and agrees that District will NOT be liable to Vendor and Vendor shall have no recourse against the District for any discounted amount that Vendor submits late to USAC for payment, if USAC refuses to pay the invoice due to late filing.

– Invoice Rejection

Vendor understands and agrees that District shall not be liable to Vendor and Vendor shall have no recourse against the District for any discounted amount that Vendor submits to USAC for payment if Vendor is at fault for USAC's refusal to pay; if the District is at fault, the District shall not be liable to Vendor and Vendor shall have no recourse against the District for the amount at issue until both the District and the Vendor have exhausted their administrative remedies of appeal to USAC and/or the FCC.

– District Approval

Vendor shall submit to the District for its review and approval before submitting it to USAC for payment, a copy of every invoice that Vendor intends to submit for services that it has provided or, in appropriate circumstances, will

be providing to the District. The District shall not unreasonably delay or withhold approval of Vendor's USAC invoices. As Vendor is solely responsible for timely filing invoices with USAC, it understands that it must submit invoices to the District sufficiently in advance of any USAC filing deadline to ensure that there will be adequate time remaining for it to meet the USAC filing deadline after the District has had a reasonable opportunity to review and approve them.

- **Reimbursement Process**

- Service Provider Annual Certification

Vendor understands that the District's ability to file a FCC Form 472 to start the BEAR process is dependent upon the Vendor filing a FCC Form 473, Service Provider Annual Certification Form for the relevant funding year. Moreover, Vendor understands and agrees that its failure to file the Form 473 in a timely manner will adversely affect the District's operations and may prohibit the District from being able to receive reimbursement monies that it is entitled to receive. If the District is unable to receive reimbursement money due to the lack of a Form 473 from the Vendor, the Vendor will be liable to the District for any monies that the District was unable to collect from the USF program due to the Vendors lack of a Form 473.

- **Delayed USF Funding Commitment**

Vendor understands that, due to circumstances beyond the District's control, the District may not receive an E-rate funding commitment by the beginning of the E-rate funding year, July 1, for the services it intends to purchase from Vendor during that funding year.

- Retroactive Invoicing

When E-rate funding is approved, Vendor shall invoice USAC for the discounted amount the District is owed retroactive to July 1st of the funding year or to whenever approved service to the District began, whichever date is later.

- **USF Audit and Document Retention Requirement**

Vendor shall maintain all bids, quotes, records, correspondence, receipts, vouchers, delivery information, memoranda and other data relating to Vendor's services to the District. All such records shall be retained for ten (10) years following completion of services and shall be subject to inspection and audit by the District. Vendor shall include in all subcontractor agreements for services, provisions requiring subcontractors to maintain the same records and allowing the District the same right to inspect and audit those records as set forth herein.

In addition to the foregoing, Vendor will create, implement and enforce an internal E-rate audit process that ensures that Vendor complies with all E-rate program rules and regulations. This process must include the following:

- Separating ineligible project management and other professional services costs, if any, from other charges
- Where labor is involved, maintaining detailed, signed individual timesheets
- Ensuring that ineligible charges are not submitted to USAC
- Invoicing to USAC that is consistent with the contract and the District's 470 and 471
- Ensuring that services or products are not provided to the District without District's express written permission or official purchase authorization
- Ensuring that District-approved substitute services or products are prominently noted on invoices submitted to USAC and the District
- Where applicable, non-recurring services should be provided prior to September 30th and recurring services provided prior to June 30th of the relevant E-rate funding year

- Supporting documentation sufficient to evidence that what was approved per the FCDL and provided to the District, was actually provided to the District and when
- If E-rate eligible services and/or installation or equipment costs are included as part of a larger contract or service/equipment billing, support for the allocation of E-rate eligible amounts and reconciliation of that total to the total amount billed
- If E-rate eligible services or equipment are allocated to multiple sites, support for the allocation consistent with the amount and locations identified in the Form 471
- Documenting that E-rate funded services were provided within the allowable contract period and program year

The purpose of this RFP is to establish a source for Internal Network Cabling Services for future projects (Internal Connections) and for Basic Maintenance (Basic Maintenance of Internal Connections) of day to day operations of network cabling infrastructure (Moves, Adds & Changes) and a means of pricing the future delivery of those services and the necessary materials. This RFP documents the requirements for the procurement of those services listed below:

The Charleston County School District will provide technology infrastructure to support the wireless system upgrades.

General conditions for Sample Elementary School

- 1) Work must be performed after school hours based on a school schedule of 7:00 am to 3:30 pm..
- 2) Most conduits, raceways, and cable trays will be existing, in place. For the sake of this sample, assume all conduit, raceways and firewalls are in place.
- 3) All work must comply with the CCSD LAN cabling standards which are available at https://www.ccsdschools.com/UserFiles/Servers/Server_2973281/File/CCSD_Contracts_and_Proced/CCSD_Technical_Specificat/LANCablingSpecs2010.pdf This document encompasses not only installation procedures, but also acceptable materials.

- 4) There are 33 access point locations that will require two (2) Category 6a cables in the scope of this sample project feeding into an MTR. Data cables will be blue.
- 5) All of the necessary information for this project is included in either this scope of work or the school diagram.

Scope of Work for Sample Elementary School

1) MTR and TR(s)

- For the purpose of this response, the attached floor plan provides one (1) TR that covers the entire building.
- The attachments referenced in this document provide additional detail.
 - Typically, Panduit NetFrame™ NFR84 racks with full wire management exist in each location. There are some TR's that contain wall-mounted cabinets.
 - Panduit termination hardware has been the districts' standard for many years. If you are proposing an "or equivalent" product, please notate.
- Contractor will provide and install the following:
 - Additional patch panels as needed to support Category 6a cabling. If there is inadequate rack space, notify CCSD PM prior to proceeding.
 - For the purpose of this response, assume that there is adequate rack space to place two new, 48 port, Category 6a patch panels for this project.

2) Miscellaneous

Contractor will provide:

- One (1) 7 foot rack patch cable and one (1) one foot patch cable for each ceiling outlet. These cables are to be white, Category 6a.

3) General requirement

In all work areas the contractor will add sufficient miscellaneous wire management hardware (J-hooks, conduit, etc.) to ensure codes and standards are met.

For the purpose of this response, assume that the new cables will follow the existing cable routes and utilize the existing pathways and supporting hardware.

Deliverables/Acceptance for Sample Elementary School

- 3) TR's are inspected for cleanliness, labeling and grounding. Contractor needs to be aware that other trades and disciplines will be in the TR's and scheduling is of the highest priority. Rack termination

and testing will be scheduled with the CCSD IT project manager.

- 4) Verification that there are no pending issues with the school or PM. All issues must be resolved prior to final acceptance and payment.

Contractor shall provide all of the acceptance documents from the completed project to include:

COST PROPOSAL

Lowest Corresponding Price Certification

To Whom It May Concern:

Lowest corresponding price (LCP) is defined as the lowest price that a service provider charges to nonresidential customers who are similarly situated to a particular E-Rate applicant (school, library, or consortium) for similar services. See 47 CFR [Part 54](#) Section 54.500(f).

- A similarly situated E-Rate applicant is one that is located in the service provider's geographic service area, i.e., the area in which the service provider is seeking to serve customers with any of its E-Rate services. See [First Report and Order](#), 12 FCC Rcd 8776, 9032, para. 486.
- Similar services include those provided under contract as well as those provided under tariff. First Report and Order, 12 FCC Rcd 8776, 9032, para. 485. See also [Fourth Order on Reconsideration](#), Report and Order 13 FCC Rcd 5318, 5398, para. 133).

Service providers cannot charge E-Rate applicants a price above the LCP for E-Rate services. See 47 CFR Section 54.511(b).

This ensures that:

- Service providers do not charge E-Rate applicants more than they would charge their other non-E-Rate services customers for the same services. See First Report and Order, 12 FCC Rcd 8776, 9031-32, para. 484; and
- Any lack of experience in negotiating in a service market does not prevent E-Rate applicants from receiving competitive prices. See First Report and Order, 12 FCC Rcd 8776, 9031, para. 484.

A service provider – regardless of the size of the company or the category of service provided – must ensure that the LCP is provided to E-Rate applicants. The applicant is not obligated to ask for it, but must receive it. See [Federal-State Joint Board on Universal Service](#) , 12 FCC Rcd 87, 383, para. 540.

I am a duly authorized officer of the company that supplied the goods and/or services proposed herein and by signing below am certifying compliance with 47 C.F.R. § 54.511, aka, Lowest Corresponding Price.
